[skimmer] : Indicate the exact skimmer positions.

[🔒] : Indicate the positions of the locking kits that have already been installed.

To comply with the French NF P90-308 safety standard, the locking kits must be installed in accordance with our recommendations in the technical instructions leaflet. The positioning of the locking kits will be determined by CF group according to the configuration of your pool. A detailed plan will be sent to you when your cover is delivered.

<u>Limits of use:</u> To comply with all NF P90-308 standards, it is essential that it is essential that all the elements making up this safety cover (mechanics, slats, motorization...) must come from CF group. If this is not the case, we will not be able to issue this certificate.
Limits of use: DEL covers for overflow pools can only be compliant if the pool is equipped with an Infinity box-type device for automatically lowering the water level by at least 2 cm when the cover is closed.
At present, DEL covers with a removable form on a side are not compliant with standard NF P90-308.
Unless the alarm manufacturer specifies otherwise, immersion alarms are not compatible with DEL covers.
