

**SECURING YOUR COVER**

# PUSHLOCK AUTOMATIC

**The patented system that automatically secures your cover**

## SECURING YOUR COVER

# PUSHLOCK AUTOMATIC

### + PEACE OF MIND

- The slats automatically secure to the wall-mounted device when the cover closes and detach effortlessly without any manual intervention when it opens.
- No need to worry about slat attachment kits when operating the cover. A practical solution for households with young children, whether for you or your tenants.

### + RELIABILITY

- System designed and manufactured in France, protected by 5 patents.
- Product compliant with the NF P90-308 standard for private pool safety.

### + COMPATIBILITIES

- Swimming pools under construction and renovation.
- Suitable for year-round use.
- Rectangular pool without outside steps, with a maximum radius of 50 cm in the corners.
- Pool with concrete coping.
- Compatible with inground DEL Rollinside\*, Rollin, Rollenergy Evolution and above-ground Rollover automatic slatted covers.
- All DEL cover slats: PVC and solar polycarbonate.
- All our DEL control systems: key switch, Wi-Key, LivePool Cover.

\* Rollinside – decking positioned between 8 and 13 cm below the water level

a brand by CF group

For water levels between 5 and 16 cm below the coping, to be maintained consistently throughout the year. Attachment device for safety pool covers designed to prevent access to the pool by children under five years old. A child can drown in less than three minutes; no type of protection can ever replace the supervision and vigilance of a responsible adult.
