

DOSING STATION
CF CONTROL

Automatic simplicity for your pool

DOSING STATION CF CONTROL

+ COMFORT

- Long lasting glass ORP sensor
- Quick and easy controls with 2 screens and 6 led measurements
- Useable from a distance through WiFi and an app

+ EASY TO USE

- Measures and regulates the pH balance as well as the disinfection levels for the water treatment of your choice:
 - an ORP version for liquid chlorine
 - or a bromine, active oxygen, or salt chlorinator version with the ORP sensor connected to the electrolyser
- The optional T° sensor allows to program filtration time and heating

+ INTELLIGENT SOLUTION

- Controls, dosing pumps, and analysis chamber mounted on a panel
- Alarm signals when not enough water or incorrect dosing
