

PROTECTIVE SHIFT

IVERNEA PLUS

DEGRESSIVE

A custom-made protection for you slats all year round

PROTECTIVE SHIFT

IVERNEA PLUS

Cover available for pool up to 10.00 x 20.00 m.

+ MATERIAL

- Opaque 260 g/m² polyethylene fabric.
- White surrounding mesh used to filter rainwater and trap leaves and dirt of your environment.

+ ANCHOR

- With its bungee-clips that fit directly onto your slats, no fitting to the coping required. There is no degradation of the bench.

+ USE

- The Ivernea Plus protective shift **can be used all year round** thanks to its white colors which reflect UV and limits the absorption of heat.

COLOUR AVAILABLE

White (topside)

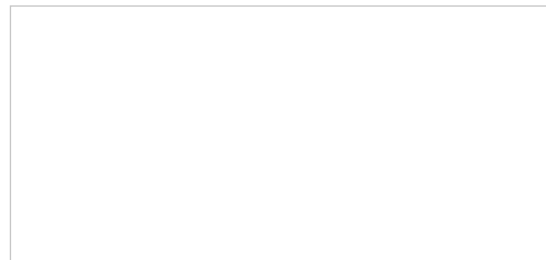

Aluminium (underside)

USEFUL TO KNOW

- ▶ The Ivernea Plus protective shift is only compatible with opaque 69 PVC slats, polycarbonate solar slats and opaque 84 PVC slats (not compatible with solar PVC slats).
